

# Customize Your Enclosure

## Why Should **POLYCASE** Customize Your Enclosure?

It's precise, efficient and a great value! Cost savings is a reality because **POLYCASE** does it all:

- No minimum. We will customize 1 to thousands.
- One purchase order and your enclosure arrives ready to go right to work
- No additional costs for extra handling by multiple suppliers
- Eliminates scrap associated with set-up and machining

**To customize your enclosure, choose from the following services to fit your exact needs:**

### **CNC MACHINING**

Precision, high tolerance machining: any size, any shape you create! We can even cut on any surface.

### **PRINTING – PAD PRINTING & SILK SCREENING**

Stylize your box with custom detailing: logos, instructions, graphics, whatever you need. Choose standard colors or let us do a custom color match. No artwork? Let **POLYCASE** create it for you, a service that's almost always free of charge.

### **PROTOTYPING & DESIGN HELP**

Send us your sketch, drawing or PC board and let us customize your box. Work with **POLYCASE** experts to communicate your company's message perfectly.

### **RF SHIELDING**

Protect your electronics from RF noise, reflected and external. The shielding is sprayed on as a thin film. Copper coating provides excellent electrical conductivity and continuity.
